Here is the only info we sent them about the sampling of their pipeline - maps of where the samples were taken.

Thanks,
Rik

Joe,
Attached are the sampling maps with the locations on them. The results are not ready yet, we are dealing with a large quantity of properties and data including your own. We will send out the results of the property to the property owners at the same time.

Thank you for your time,
Alex

Alex,

I was looking at some old papers on my desk and was remind that you completed sampling on NIPSCO property this past spring and early summer.

As part of our agreement you were to provide us with a copy of USEPA's/your results. I wanted to inquire on the status of your work and to also received results to date along with a map/drawing that shows sample locations.

Thanks

Joe Ferry
